BOOK SYNOPSIS

We don't experience our everyday lives through just one lens; rather, we experience all elements of our identity—race, class, gender, sexuality—simultaneously. *Identities and Inequalities* acknowledges this complex reality and brings to light the importance of studying the intersections of race, class, gender, and sexuality. It also examines these intersections as both elements of personal identity and sources of social inequality. This new edition brings into conversation a multitude of current events, from police violence and global public health crises, to the legalization of same-sex marriage. With both updated statistics and a fresh look at today's social climate, Newman's *Identities and Inequalities* will prepare students to study these all-important issues in a whole new way. The Connect course for this offering includes SmartBook, an adaptive reading and study experience which guides students to master, recall, and apply key concepts while providing automatically-graded assessments. Instructors and students can now access their course content through the Connect digital learning platform by purchasing either standalone Connect access or a bundle of print and Connect access. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following:

- SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content.
- Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course.
- Progress dashboards that quickly show how you are performing on your assignments and tips for improvement.
- The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping.

Complete system requirements to use Connect can be found here:
